

***SBase***

```
classDiagram
    class SBase
    class SpeciesExtended["Species (extended)"]
    SpeciesExtended --|> SBase
    SpeciesExtended "isSpatial: boolean"
```

The diagram illustrates a class hierarchy. At the top is a solid rectangular box labeled ***SBase***. Below it is a triangular arrow pointing upwards, indicating inheritance. The arrow points to a dashed rectangular box labeled **Species (extended)**. Inside this dashed box, the text **isSpatial: boolean** is displayed, representing an attribute of the **Species (extended)** class.

**Species (extended)**

**isSpatial: boolean**
