

SBase

```
classDiagram
    class SBase
    class Species["Species (extended)"]
    Species --|> SBase
```

The diagram illustrates a class hierarchy. At the top is a solid rectangular box labeled ***SBase***. Below it is a solid triangular box with a vertical line extending upwards to its base, representing a generalization relationship. This line connects to a dashed rectangular box below. Inside this dashed box, the text **Species (extended)** is written in green, and below it, the attribute **isSpatial: boolean** is listed in green.

Species (extended)

isSpatial: boolean
