

SBase

```
classDiagram
    class SBase
    class DomainType {
        spatialId: SpId
        spatialDimension: int
    }
    DomainType --|> SBase
```

The diagram shows a class hierarchy where **DomainType** is a subclass of **SBase**. The **SBase** class is represented by a rectangle with the name ***SBase*** in bold italic font. The **DomainType** class is represented by a rectangle divided into two sections: the top section contains the name **DomainType** in bold blue font, and the bottom section contains two attributes: **spatialId: SpId** and **spatialDimension: int** in blue font. A blue line with an open triangle arrowhead points from the top of the **DomainType** class to the bottom of the **SBase** class, indicating inheritance.

DomainType

spatialId: SpId

spatialDimension: int
