

SBase

```
classDiagram
    class SBase
    class DomainType {
        id: SpId
        name: string {use="optional"}
        spatialDimensions: int
    }
    SBase <|-- DomainType
```

The diagram illustrates a class hierarchy. At the top is a box labeled ***SBase***. Below it is a box for **DomainType**, which is divided into two sections. The top section contains the class name, and the bottom section lists its attributes: `id: SpId`, `name: string {use="optional"}`, and `spatialDimensions: int`. A blue line with an open triangle arrow points from the **DomainType** box up to the **SBase** box, indicating that **DomainType** inherits from **SBase**.

DomainType

id: SpId

name: string {use="optional"}

spatialDimensions: int
