

***SBase***

```
classDiagram
    class SBase
    class DomainType {
        id: SpId
        spatialDimensions: int
    }
    SBase <|-- DomainType
```

The diagram illustrates a class hierarchy. At the top is a box labeled ***SBase***. Below it is a larger box labeled **DomainType**. A blue line with an open triangle arrow points from the **DomainType** box up to the ***SBase*** box, indicating that **DomainType** inherits from ***SBase***. The **DomainType** box is divided into two sections: the top section contains the class name, and the bottom section contains the attributes `id: SpId` and `spatialDimensions: int`.

**DomainType**

id: SpId

spatialDimensions: int
